

## Key Focus Questions

For each integrated unit study initial questions to ask students are provided to generate the interest and focus required for various topics of study. These are only initial questions to which more can be added.

## Suggested Learning Activities

It is envisaged that this resource be viewed as the initial springboard that encourages students to interact with the environment and with others wherever and whenever possible. The learning activities provided are only suggestions. Further innovations and suggestions of learning activities are welcome.

## Teaching and Learning Resources

The Ngaati Whanaunga Incorporated Society has developed comprehensive resources to aid the delivery of this educational package. More resources will be added as this resource is trialled and reviewed.

## Assessment Criteria

The criteria for assessment are related directly to the achievement objectives. The suggested learning activities can also be carried out as assessment tasks depending on the needs of students and the context of learning. Further innovations and suggestions of assessment tasks are welcome.
